# AC Master 24/500 IEC (230 V)

Product code: 28020502

## Reliable AC power for recreational and semi-professional use

These affordable sine wave inverters convert 12 or 24 V battery voltage into reliable 230 V 50/60 Hz or 120 V 50/60 Hz grid power, making them ideal for recreational and semi-professional applications. The AC Master series is easy to install and delivers full output, even under the most demanding conditions. The pure sine wave technology provides an outstanding power quality, ensuring the correct functioning of sensitive equipment. The usage of high frequency switching technology eliminates any annoying humming and buzzing sounds.

Representing complete value for money, these ruggedly built inverters provide essential home comforts when you're far from the nearest grid connection.

### **Features**

- · Pure sine wave technology protects sensitive equipment.
- · Delivers full output at high peak power under the most demanding conditions.
- · Automatic power saving system for extended runtime.
- · Easy to install: convenient IEC socket with IEC plug included.
- $\cdot$  Reliable and safe operation; protected against over-temperature, overload, short circuit, high or low battery voltage.

### **Applications**

Both recreational and semi-professional use, where grid power varies or is unavailable. Applications include lighting, appliances, electric cooking and power tools. For (mobile) applications in your home, office or service vehicle, or during your holidays.

# **Specifications**

### **General specifications**

Output voltage 230 V - 50 Hz (± 0.1%)

Output waveform true sine Nominal battery voltage 24 V >= 50 Ah Recommended battery capacity 500 W Continuous power at 25 °C / 77 °F, cos phi 1

Continuous power at 40 °C / 104 °F, cos phi 1 400 W Peak load (5 s) 800 W AC connection universal Galvanic isolation yes 91 % Efficiency Display/read-out LED display

Alarms 4 alarm modes Dimensions, hxwxd 210 x 130 x 60 mm

8.3 x 5.1 x 2.4 inch

2.7 lb Compliance CE, E-mark, ABYC A-31

### **Technical specifications**

Weight

Cos phi

Technology high frequency, input & output fully isolated

1.22 kg

Low battery voltage, switches off at 20 V, ± 0.5 V 22 V, ± 0.5 V Low battery voltage, switches on at High battery voltage, switches off at 32 V, ± 0.5 V High battery voltage, switches on at 29 V, ± 0.5 V Max. ripple on DC (battery) 10 % RMS 19 A Input current (nominal load) 0.29 A - 7 W No-load power consumption (ON mode)

0.16 A - 4 W No-load power consumption (energy saving mode)

Minimal DC fuse (slow blow) 1.5 metre DC cable delivered as standard Minimal cable size

Harmonic distortion typical

all power factors allowed Temperature range (ambient temp.) -20 °C to 40 °C, derating power > 40 °C

-4 to 104 °F natural/forced

50 °C Switch off at (auto recover after cooling down) 122 °F

Protection degree IP23, vertical wall mounting Protections over temperature, over load, short circuit, high/low battery voltage

MasterBus compatible

MASTERVOLT THE POWER TO BE INDEPENDENT
